

Ahoy There Reception Class!

Whilst we can't be on board our pirate ship today with Captain Heaton at school why not try some of these things at home:

- What could you use in making a pirate ship?
- Can you think of a pirate name for yourself?
- Could you explore floating and sinking? E.g. In the kitchen sink or at bath time.
- Can you snuggle up and read your school reading book?
- Could you help make a tasty snack?
- Can you play with some of your new Christmas toys?
- Can you use your toys in making the number 10 in lots of different ways?
- Can you log on to NUMBOTS and practice your number work?

I will see you all back aboard our pirate ship in school very soon.
Captain Heaton!
